

# Sunflower™ Showerhead

## EQUIPMENT LIST \*For list prices, add 20%

### SHOWERHEADS

Hundreds of reservoir dimples surrounding each tiny nozzle hole assure a refreshing "rain" from all over the big showerhead face. It's the perfect shower for your club, home, or pool. The Sunflower™, unlike all other showerheads, must operate directly downward.

### SHOWER ARMS

Elegant craftsmanship and durability work seamlessly with Sunflower™ Showerheads. Choose from a variety of shapes and sizes then pair with a matching finish.

### MOUNTINGS & FITTINGS

Traditionally styled do-it-yourself products make the connection between our showerheads and standard 1/2" plumbing. Our diverter flange allows another showerhead to be used with the Sunflower™.

NUM.	DESCRIPTION	FINISH.1	FINISH.2	FINISH.3	FINISH.4
------	-------------	----------	----------	----------	----------

### SHOWERHEADS
